Champion V.V. American Longshot is the result of a considered attempt at line breeding American style! We mated Champion Snowmass Velvet Voyager (Champion US & UK) to Champion Snowmass Lacey Velvet (Champion US & UK) - both descendants of the incredibly famous Snowmass Velvet Touche. The result certainly did not disappoint! A lovely upstanding fawn male with incredible double American genetics. Shearing first fleece was 13.6 micron with an SD of 3, with the last fleece 15.7 micron with an SD of 3.4. Needless to say, we do have the full genetics already in house, so offered to a keen fawn breeder - unproven at this stage, so £7,800.
