### Notes:

A Kind of Magic (MF) is one of the very first colour males with Snowmass genetics on both sides of the pedigree which we are offering to a discerning breeder. Magic's Sire is Snowmass Mystic Star XX of ARW, a medium brown upstanding male, champion brown at Kansas Futurity and in UK. His pedigree goes back to the fabulous Snowmass Matrix. His offspring has been winning Supreme championships! Dam is the lovely brown Artwork I.K Azucena - her Sire is the very special Snowmass Incan King XXX (DF), who is sadly no longer with us, Her Dam is Meon Valley Aphrodite, a beautiful medium brown female. With colour throughout the pedigree, Magic's first fleece was 15.9 microns with an SD of 3.8, latest fleece stats: 19 microns with an SD of 3.9 Magic clearly has promising stud credentials, unproven at this stage, hence, offered for £4,800
